

4-Week Efficacy Analysis — Anti-Spot Fluid Sunscreen

Key Ingredients and Functions:

- **Zinc Oxide & Titanium Dioxide:** Broad-spectrum UV filters; protect against UV-induced pigmentation.
- **Ethylhexyl Methoxycinnamate & Butyl Methoxydibenzoylmethane:** Chemical filters providing UVA/UVB balance.
- **Ascorbyl Palmitate (Vitamin C Ester):** Brightening and antioxidant effect aiding pigmentation reduction.
- **Hyaluronic Acid:** Strong humectant, increases skin hydration and elasticity.
- **Panthenol, Allantoin, Tocopheryl Acetate:** Barrier repair, soothing, anti-inflammatory support.
- **Aloe Vera & Chamomile Extracts:** Natural calming agents that reduce redness and irritation.
